THE COMPANY

Investment Objective

The Company's investment objective is "to provide long-term total return through a flexible investment policy that permits it to make investments predominantly in infrastructure, utility and related sectors, mainly in emerging markets."

Investment restrictions and guidelines

The Board of Directors of the Company (the "Board") sets guidelines for the AIFM under which the Company is managed and these can be varied from time to time. The Company typically remains fully invested, mainly in equities.

Within the general policy of maintaining a diversified portfolio there are no specific geographic or industry sector exposure limits, although investments in a single country must not exceed 50% of gross assets at the time of investment. The Company has placed a limit of 10% of gross assets that can be invested in unquoted and untraded investments at the time of acquisition (excluding the Company's investment in a segregated account of Global Equity Risk Protection Limited ("GERP"), which it uses for derivative transactions).

Investments other than in infrastructure, utility and related companies (including GERP) must not exceed 20% of gross assets at the time of investment. No single investment may be made by the Company which exceeds 20% of gross assets at the time of investment.

Not more than 10% in aggregate of the value of the total assets of the Company at the time the investment is made will be invested in other closed-ended investment funds which are listed on the Official List maintained by the FCA (except to the extent that those investment funds have stated investment policies to invest no more than 15% of their total assets in other investment companies which are listed on the Official List). Regardless of the investment policy of other closed-ended investment funds listed on the Official List and which are invested in by the Company, the Company shall not invest in such funds more than 15% in aggregate of the value of the total assets of the Company at the time the investment is made.

Derivatives may be used to enable the Company to make investments more efficiently and for the purposes of efficient portfolio management including, if appropriate, protection against currency risks. Equity derivative transactions are carried out by GERP, who may not hold more than 50% of the value of the Company's segregated portfolio in index options.

Leverage

Borrowings, whether short or long-term in nature, can be taken out either in Sterling, US Dollars, Euros or any currency for which there is a corresponding asset within the Company's portfolio (at the time of draw down the value drawn must not exceed the value of the corresponding asset in the portfolio). The Board's guidelines on borrowings are that gearing (being total borrowings measured against gross assets) must not exceed 25% at the time of drawdown.

Maximum gross and commitment leverage, calculated in accordance with the requirements under the AIFM Directive as inclusive of borrowings and exposure to derivatives (see above), shall similarly not exceed 300%.

Material changes to leverage policies must be agreed by the Board and will be notified to shareholders via the Company's website www.uem.limited and its Annual Report and Accounts.

The total level of gearing employed by the Company is updated regularly on the "Monthly Factsheet" published on the Company's website, www.uem.limited.

Investment Policy and strategy

The Business Review section of the Annual Report and Accounts, which can be found on the Company's website, www.uem.limited, contains a description of the Investment Policy, investment strategy and objectives of the Company, the types of assets in which the Company may invest and the techniques it may employ. There are no arrangements for collateral or asset reuse.

The Company is required to obtain the prior approval of shareholders, by ordinary resolution, to any material change to its published Investment Policy or investment strategy. The Company will announce any such change through a Regulatory Information Service.

Any change in investment strategy or investment policy which does not amount to a material change to the Company's published Investment Policy may be made by the Company without shareholder approval.

Dividend policy

The Company pays dividend distributions quarterly to shareholders. Dividend payments are announced through a Regulatory Information Service. The Annual Report and Accounts on the Company's website www.uem.limited contains details of dividends paid and proposed in respect of the relevant financial year.

ADMINISTRATION AND MANAGEMENT OF THE COMPANY

Alternative Investment Fund Manager (AIFM)

The Company has entered into a management agreement with ICMIM and ICM Limited ("**ICM**") dated 31 March 2015 pursuant to which ICMIM has been appointed to act as the Company's AIFM, in accordance with the requirements of the AIFM Directive, with sole responsibility for risk management and both ICMIM and ICM have been appointed with joint responsibility for portfolio management, in each case with effect from 13 April 2015. ICMIM is an English incorporated company which is authorised and regulated by the FCA.

In addition to its duties as joint portfolio manager, ICM also provides company secretarial services to the Company.

The aggregate annual management fee payable by the Company is 0.65% of net assets, payable quarterly in arrears which will be apportioned between ICM and ICMIM (the "**Joint Portfolio Managers**") in accordance with a management services agreement between them. The annual management fee is adjusted for fees earned by the Joint Portfolio Managers in respect of investment holdings managed or advised by them. The Joint Portfolio Managers may become entitled to a performance related fee equal to 15% of the amount of any outperformance in that period by equity funds attributable to shareholders of the higher of (i) the post-tax yield on the FTSE Actuaries Government Securities UK Gilt 5 to 10 years Index, plus inflation (on the RPIX basis), plus 2% and (ii) 8%. The maximum amount of a performance fee payable in respect of any financial year is 1.85% of the average net assets of the Company and any performance fee in excess of this cap will be written off. No performance fee is payable until the net asset value exceeds the high watermark established when a performance fee was last paid, adjusted for capital events and dividends paid since its establishment.

In addition to the management fee and the performance fee, ICM receives a fee equal to one-third of the total employment costs in employing a suitably experienced person to provide company secretarial services to the Company.

ICMIM and ICM are also reimbursed for all out of pocket costs and expenses incurred on behalf of the Company by them and for reasonable travel and related costs incurred in the performance of

their duties.

The management agreement continues unless or until terminated by either party giving to the other not less than six months' notice in writing or unless otherwise terminated with cause upon immediate written notice from the non-defaulting party/ies to the defaulting party/ies.

Depository services providers

The Company has appointed JPMorgan Europe Limited ("**JPMEL**" or the "**Depository**") to provide depository services under articles 21(7), (8)(b) and (9) of the AIFM Directive, under the terms of a depository services agreement dated 13 April 2015 to which both the Company and the AIFM are parties (the "**Depository Services Agreement**"). The services provided by JPMEL as depository services provider include:

- general oversight responsibilities over the issue and cancellation of the Company's share capital, the carrying out of net asset value calculations, the application of income, and the ex-post review of investment transactions;
- monitoring the Company's cash flows and ensuring that all cash is booked in appropriate accounts in the name of the Company, ICMIM or JPMEL acting on behalf of the Company; and
- verifying the Company's ownership of its assets other than financial instruments and maintaining records sufficient for verification of the Company's ownership rights.

The Company has agreed to indemnify JPMEL against any liabilities that may be imposed on or incurred by JPMEL in connection with or arising of its performance under the Depository Services Agreement other than as a result of its fraud, negligence or willful misconduct.

The Company has also appointed JPMorgan Chase Bank, NA – Jersey Branch ("**JPMCB**") to provide custodial services pursuant to a novation agreement dated 13 April 2015 in accordance with the terms of a Global Custody Agreement dated 20 July 2005 ("**Global Custody Agreement**"). The services provided by JPMCB include safekeeping of all assets held within the Company's investment portfolio, including those classed as financial instruments for the purpose of the AIFM Directive and retaining custody of the Company's financial instruments in segregated accounts so that they can be clearly identified as belonging to the Company.

The terms of the Global Custody Agreement provide that JPMCB has a general lien over financial instruments that it holds and is entitled to withhold delivery of such assets, sell or otherwise realise such assets and to apply the proceeds pending satisfaction of any liabilities outstanding of the Company to JPMCB under the Global Custody Agreement.

JPMEL receives an annual fee for its services of 2.2 basis points on the Company's net asset value, subject to a minimum fee of £25,000 per annum. JPMCB receives safekeeping and administration charges based on the market value of assets in different countries and a transaction charge for all securities transactions, both of which vary country by country.

JPMEL's and JPMCB's duties are owed to the Company and not directly to shareholders in the Company, whether individually or in groups. Accordingly, shareholders may not bring any action or make a claim against JPMEL or JPMCB under the Depository Services Agreement or the Global Custody Agreement.

RISK FACTORS AND RISK MANAGEMENT

Risk profile

The Company's key risks and the procedures in place for the management of those risks are set out in the Annual Report and Accounts on its website, www.uem.limited, under "Principal Risks" and under the Audit Committee Report.

The Company reports in its half-yearly report and accounts, which can be found at www.uem.limited, whether the key risks have changed since the year end.

Gearing

Gearing levels may change from time to time in accordance with the Investment Managers' and the Board's assessment of risk and reward. Whilst the use of borrowings by the Company should enhance total return where the return on the Company's underlying securities is rising and exceeds the cost of borrowing, it will have the opposite effect where the underlying return is falling.

Liquidity risk management

The AIFM and the Board have in place a liquidity management policy in relation to the Company which is intended to ensure that the Company's investment portfolio maintains a level of liquidity which is appropriate to the Company's obligations in respect of investment settlements, unlisted investments commitments, share buybacks, loan repayments, dividend payments and other operating costs. The exercise by the Board of the Company's power to buy-back its own shares is entirely discretionary.

The majority of the Company's portfolio of investments is liquid. Illiquid assets of the Company are likely to include investments in unlisted companies. The Company's Annual Report and Accounts summarises details of the unlisted investments.

A list of pre-approved counterparties is maintained by the AIFM. Cash and deposits must be held with approved banks with a minimum rating as set by the Company from time to time.

Shareholders will be notified by way of a disclosure on the website, www.uem.limited in the event of any material changes being made to the liquidity management systems and procedures, or where any new arrangements for managing the Company's liquidity are introduced.

Professional negligence liability risks

ICMIM, as AIFM, covers professional liability risks through additional own funds which equates to at least 0.01% of the value of portfolios of AIFs managed by ICMIM, reviewed annually.
